

## Meeting in Strängnäs

måndag, 03 augusti 2009

On Saturday the 1 of August there was a military vehicle meeting i Strängnäs.

Although there was som threatening clouds in the sky we got a sunny day.

In the morning we gathered at Lagnö stores where some of the vehicles that will be in the new museum, The Arsenal , is stored while waiting for the new museum building. Then we drove in convoy up to the old regimental area that is now home to schools and various businesses. We took the opportunity to see the place where the Russians dropped a bomb in 1944. Then we took our lunch, joining at the very fine soldier croft. After lunch we went and took a look on the site where the new museum will begin construction this autumn.

In the afternoon we came to our evening camp where some of us struck up a tent. The bbq's were heated and we ate a nice dinner together.

Thank you to Hasse Andersson and Södermanlands regiment museiförening as they made that this a successful and interesting meet.
